EDUCATION

Bachelor of Technology- CSE
Cloud Computing specialization
Bennett University
2022- 2026

CERTIFICATIONS

AWS Cloud Practitioner

Google Cloud Computing Foundations

EXPLORED CLOUD PLATFORMS

AWS
GCP

LANGUAGES

Java
Python
C++
SQL
JavaScript (beginner)

TECHNICAL SKILLS

Linux
Terraform
Docker
Kubernetes

ABOUT ME

Aspiring Cloud Engineer and 3rd year B.Tech – CSE student**[9.1 cgpa]** with specialization in Cloud Computing from Bennett University (2022–2026).Developing cloud-based applications and working with machine learning models.Passionate about building scalable cloud solutions.

EXPERIENCE

Cloud Computing Intern |Acmegrade

Completed a foundational course in cloud computing, gaining hands-on experience with AWS services. Built and deployed a chatbot and a cloud-hosted webpage as part of the course. Received both course completion and internship certificates for successfully implementing cloud-based projects.

Senior Core Tech Team Member

[Cloud Computing Club, Bennett University]
Participated and presented in seminars for the club's events.

Hackathons

Collaborated with team members in multiple hackathons, developing and gaining knowledge in the process.

PROJECTS

Landslide Prediction and Alert System
Developed a Random Forest-based AI model deployed on AWS, using Lambda & SNS for alerts, S3 for data storage, Amplify for scalable application deployment to notify users of landslide risks.

Hosted webpages and applications on the cloud & Building ChatBots
[SkyShop - an e-commerce website integrated with a chatbot(using AWS Lex & Kommunicate)]

Women's health app using Java & android studio for menstrual cycle management.

Collaborated in a team project making a code repository and editor platform, **contributing to backend (Firebase) and frontend (using FlutterFlow software).**
